

2 JOURNEY MEDICAL PLAZA

2 Journey, Aliso Viejo, CA

Architect:

LPA

Project Description:

A 25,000 SF 2-story elevated poured-in-place concrete medical office building over on-grade parking. Building design features many sustainable design elements including attention to the Heat Island effect and solar orientation for maximum energy efficiency. The building design also incorporates many amenities and architectural design elements, including covered parking, open air atrium design with covered walkways, and a high image lobby featuring 2 elevators and an open staircase.

Occupancy:

Building is designed to house various medical office practices and an accredited outpatient surgery center.
